Noon Raid On London Lasts Almost Hour: 300 Nazi Bombers By British

"LONDON, Sept. 15 (Reuter)—London's first air raid today came about noon and lasted for almost an hour. Screaming bombs were seen to fall in a south-east district. Watchers atop London saw six enemy planes high up in the sky.

Later fragments of an enemy plane were seen falling like leaves in the centre of Lordon and three airmen baled out.

Two enemy bombers were brought down in the London suburbs.

GENERALISSIMO'S MESSAGE TO H.K. STUDENTS

A MESSAGE TO THE STUDENTS OF HONGKONG FROM GENERALISSIMO CHIANG KAI-SHEK in which he expressed optimism regarding Chinese resistance against the aggressor and urged Chinese youths to do their best in the interests of China, was brought back by a delegation of six students who returned from Chungking on Friday, after presenting a sword to the Leader of China.

The delegation comprised Messrs. Ha Kit-wah (representing Canton University), Young Kim-pong (Hongkong Students' Assen.), Chang Chee-wun (S'hai Students' Assen.), Chu Hoi-kwin. (Kwok Ming University), Lum Cheeming (Y. M. C. A.) and Lam Chee.

High explosive bombs were dropped in a town in North-West England and severe damage was done in and near industrial buildings. About 300 Nazi bombers and German supervision fighters approaching, from the

south-east coast, made a desperate effort to reach London during two afternoon alarms yesterday They were driven off by British fighters without, so far as is known, dropping any bombs.

BIGGEST BATTLE

A witness described the battle during the second afternoon raid as the "biggest that ever happened here." It is estimated that meeting yesterday:about 200 planes were engaged in fierce battles above the clouds.

It is now known that bombs fell in the London area during the third warning of the day and a small fire started. There were some casualties.

A bomb also hit railings enclosing a church in the London area and shattered windows in the vicinity. Seventy-five people in the crypt of the church were all marshalled safely away. The church was built in the year of the Battle of Waterloo.

Details Of Latest Hammering

LONDON, SEPT. 15 (REUTER)—THE GERMAN INVASION PORTS ALONG THE FRENCH COAST APPEARED TO HAVE BEEN HEAVILY BOMBARDED BY BRITISH BOMBERS LAST NIGHT.

The attack seemed to be fiercer than the previous night raids. Searchlights, parachute flares, flashes of bursting bombs and A.A. guns lit up the waterfront for many miles as endless explosions shook the Kent coast. The main objective appeared to be Calais.

The Straits of Dover was calm and the wind light.

Details of the latest hammering of the German invasion bases are given in a bulletin issued by the Air Ministry news service which stated that operations lasted from soon after 9 p.m. (G.M.T.) until shortly before dawn.

The first sortle of night war was directed against the harbour of Boulogne, barges in the harbour basin were bombed in a series of low-level and shallow dive attacks and hits were also scored on adjoining wharves and jetties.

LARGE FIRES

and quays. . During the previous afternoon the bomber forces successfully attacked a number of barges moored in the river at Ijsselmond and a convoy of six or seven tankers, each of about 2.000 tons, which were sighted off the end of the Mole at Zeebrugge. In the attack on the convoy direct hits were scored on one vessel which exploded in a mass of flames and was soon enclosed in dense, black smoke.

"INVASION SEASON" CONCLUSION LONDON, Sept. 15 (Reuter)—The most obvious fact after a week

of the most desperate onslaught by the Luftwaffe is that its efforts to smash the R.A.F. as it smashed the Polish, Dutch, Belgian and French air forces as a prelude to over-running the country has hitherto failed. Far from being even worn down the strength of the British Fighter Command is actually higher than ever after six weeks of battle.

MUCH CONJECTURE

Whether Hitler will, nevertheless, persist in the invasion plans is a matter for widespread conjecture but the general view is epitomised by an article by J. L. Garvin in THE OBSERVER.

He says that if Hitler means it the madness would seem to lie in attempting any serious invasion of Britain before gaining full mastery of the air once and for all. It is impossible that he can do it soon enough.

Yet, if he is to come at all, he must dare it this week. The full moon and full tides are tomorrow and the weather may break at any moment. Perhaps Hitler is masking Axis

Perhaps the man broods with deadly fanaticism on the thought of attempting at all risks a blow In a few days we shall know.

Maybe time has not seen more momentous days. We are ready—ready to meet them and beat them.

LEAGUE THIS YEAR?

The annual meeting of the Hongkong Cricket League will be held this evening at the Urban Council Chamber, Post Office Building, when, it is understood, a proposal will be put forward that League cricket be dropped entirely for the coming season.

As there does appear to be some demand for League cricket, even in modified form, it is unlikely, that the proposal will meet with much support. Whatever modifications may have to be made, cricketers are looking forward to a League this season in some shape or form.

The meeting today will commence at 5.15 p.m.

BOMBING OF TEL-AVIV

Wanton Slaughter Ires Palestine

LONDON, Sept. 14 (Reuter)-Deaths caused in the revent Ireland and the Duke of Windsor bombing of the open city of Tel-Aviv have now risen to 119 killed and 160 injured, mostly Jews. Among the victims are 60 children. The British Red Cross of Jerusalem and Order of St. John have sent £500 for the relief of the Your Majesties' lives." victims

A wave of fury has swept Palestine at this wanton slaughter, and in the Arab world the bombing is taken as clear evidence that the Italians, foiled on sea, land and in the air, are now resorting to dispicable and cowardly methods of waging war.

The Arab press in Jerusalem expresses deep sympathy for the Jewish victims and their families, As one leading Arab dai'y paper puts it:--

"Such evil outrages are contrary to all humanitarian principles and repugnant to the faith of Islam."

MINIATURE GOLF FOR RITZ

The Ritz, one of the most modern and up-to-date amusement centres in the Far East, U.S. To "Manufacture which was opened recently, has proved a great attraction for weekend swimming and dancing par-

Representatives of the Press were given an insight, into the workings of this latest "playground' in the Colony when they made a tour under the guidance of Mr. Ginarn Lao, manager.

The swimming pool, beautifully designed and laid-out, measures 100 by 50 feet and has a depth of 10 feet at one end and four at the other. Along with the bigger pool there is a smaller one for children which is four feet at the deepest end.

" FILTERED WATER Mr. Lao explined that the water, which was pumped into the baths from the sea was first filtered and then chlorinated, and baths are desinged in such a way that the water is constantly being changed.

Every Tuesday and Saturday mornings the baths are emptied and thoroughly cleaned

The soda fountain, where icecream and various hot and cold drinks can be obtained, is neatly arranged and joins the restaurant with the swimming pool, having access-from both sides.

The restaurant forms the eastern, wing of the building. Its colour scheme of green and white and the soft lighting have a very soothing and pleasant effect.

Mr. Lao revealed that a miniature golf course, plans for which are in hand and a roller skating rink, will soon be added to the activities of the Ritz. The swimming pools, Mr. Lao told our representative, will remain open for as long as the weather permits and that there was a possibility of heating the baths in winter. PRIZES AWARDED

BISHOP VALTORTA OPENS ST. TERESA'S HOSPITAL The formal opening of St. Teresa's Hospital, in Prince

Edward Road, Kowloon, took place on Saturday alternoon, the Right Rev. Henry Valtorta, Vicar Apostolic of Hongkong, officiating.

After the opening speech and a prayer, the building was blessed with holy water and its majestic portals, opened by His Lordship who then turned round to the crowd and beckoned them. to come in.

Bisnup sald:--

striking instance of the incredible thousands seeking refuge from growth and development of the war-tormented China. town of Kowloon, as well as of the activities of the Catholic Church in it.

What, only 20 years ago, was a rough country path between Kowloon City and Shamshuipo - a path along which I loved to walk crossing hills and streams—is now a fine avenue flanked by beautiful homes and buildings.

Where there could be numbered at most a few Catholic families of farmers, there exists now a large Teresa's Hospital.

NEED FELT

Expressing his pleasure at being able to perform the opening ceremony, he said that the building of such a hospital was suggested 20 years ago, when there was no Government hospital in Kowloon and the need was felt keenly. In spite of greatly increased facilities.

authority on which one can rely. In Gee v. Hazleton and others (1932) 1 K.B. 179 at 182 Scrutton. L.J. said:-

"The difficulty with the Rent Restriction Acts was for a long time that neither Parliament nor the Courts were clear whether the Rent Restriction Acts were intended to give a property to the tenant, which he could transfer to other people or whether-and this, I think, is the view now well establishedthey confer a personal pri-

Having so held that the tion of Eviction Consolidation and plaintiff maintained that as the fendant was not a sitting tenant Amendment Ordinance, 1939, had original tenant was a sitting I adjourned the case in order no application to the case, later tenant and had assigned all that I might hear argument on the applicability of the Preventhe assessor's figure there was no Solicitor for the defendant clear indication in the Ordinance except those let furnished and the of Eviction Consolidation and ment with the tenant had been taken away.

that as from March 31 no was lacking landlord is to demand an increase of rent from his tenant in excess of the figure fixed by the assessor or the Court. Section 5 provides that no rent raised since that date in excess of such figure is recoverable from the tenant and that any excess so paid by the tenant is recoverable from the landlord.

CONTINUED BY CONSENT

He argued that the Court should find the rent had been so raised: even though the tenant had been holding over until April 30 there had been no demand by the plaintiff that he should vacate. He continued as a tenant by consent.

If the Court were to hold that this was not a case of raising of rent within these Sections then the object of the Ordinance would be defeated and landlords could give their tenants notice to quit and. therefore, give them a new ten-

ancy at increased rent. One answer to this point is that the Ordinance nowhere prevents the landlord terminating the tenancy (where the tenant is not a sitting tenant) and obtaining a new tenant at a figure in excess of the assessor's figure, thereby passing on the War Tax to the new tenant.

Can it be said here that the landlord has demanded an in crease from his tenant in excess of the assessor's figure? No provision in the Ordinance entitles a tenant to retain possession after the explry of his period nor does any Section prevent an order for the recovery of possession being made. In the Increase of Rent etc. (Restriction Act) 1920 by Section 5 the landlord's right to possession is restricted and by Section 15 the tenant who holds over remains entitled to the benefit of all the terms and conditions of the original contract.

Combating The Cholera Menace In The Colony

Drastic changes in the present method of removing nightsell are foreshadowed in a new scheme now being prepared for the more sanitary and efficient method of removing nightsoil in Hongkong, It is reliably understood. The new scheme is designed to play a vital, part in the control of infectious diseases such as cholera and dysentery.

Under present arrangements nightsoil is removed by coolies. Householders are allowed to use any sort of buckets. The coolies empty the buckets into containers, and then sluice round the buckets with a dash of water which is often poured into the drain, and the empty buckets are returned to the household.

This ideal calls for the provision of two covered containers to each householder. A different system to the contractor to get rid of it will then be used, "
